# RESIDENTS COUNCIL MEETING

- Still no development with the sports equipment order.
- **NL to speak to RS about this**
- Tuck shop requires further discussion.

## MEETING MINUTES

- Water coolers in the houses were discussed and the advantages of these. Council thought that the cold water supplies in the houses were not cold enough, particularly after doing active activities when children and staff need a refreshing drink. Council pointed out how good the drinks cooler in the sports hall / tuck shop and staff room are. **NL / PM to speak to DL / SC about the possibility of water coolers in each house.**
- VIVO activity night. Idea put forward to have a full residential activity night with different challenges for first and second activity. House compete against each other for VIVO Rewards. **This to be included as an agenda item for the next children's meeting so we can get ideas for challenges.**
- Tuck Shop. Council eager to see if this would be something we could look at and revisit with SLT. **All agreed that this issue needs a more in-depth conversation and that we maybe need to dedicate the next council meeting to TUCK SHOP. NL / PM will speak to DL and TL before the next meeting to get a rough idea on what they think about the idea of a tuck shop.**
- Residential Sports Equipment once again came up in discussion. **NL to speak to RS and DL regarding where we are at for ordering sports equipment. Particularly for activity clubs.**
- Rachel Lillford will now be attending the residential council meetings on behalf of the EWB Team.

Meeting closed at 1.10pm.  
Minutes by N Leng.
