MEETING MINUTES

Welcome

Everyone welcomed to the residential council by SF and introduction made. LN explained what the residential council was as there some students and staff who had done the residential council before.

Agenda Items and general discussion

Sports

- It was suggested that potentially residential could have the goal posts from school when the school gets new ones. CP thinks the ones on the field will be better for residential as they are bigger. NR suggested to speak to AW.
- CP suggested putting up a pole and net for badminton and that the net can go across the middle of the residential gardens
- SF brought up the topic of sports equipment for residential and discussed residential having their own sports equipment. If any sports equipment was broken then whichever house was using it, that house would have to replace it out of their house budget. SF discussed that one of the houses had mentioned picnic tables in the gardens for summer. LN then suggested that the houses could have a big picnic in the garden.
