

WELCOME TO OUR
**EXTENDED
DAYS**

EXTENDED DAYS PROVISION

A JOURNEY TO EXCELLENCE

The Extended Days provision provides an extended learning experience for pupils with consistent, clear, and structured boundaries to help them engage with the daily routines and expectations of Oakfield School.

We provide enriching opportunities, engaging activities and social experiences to help pupils, who attend the school with their development and progress within the school.

We help improve attendance working closely with our internal Attendance Team.

We provide support for families through regular contact with the Extended Days staff. This develops positive relationships and a seamless transition between school and the extended days.

EXTENDED DAYS PROVISION

'Provides an extended learning experience for pupils with consistent, clear and structured boundaries to help pupils engage with the daily routines and expectations.'

OPPORTUNITIES

NOT TO BE MISSED

OUR ACTIVITIES

During the evenings we provide a range of activities on and off site, focusing on key areas of development.

First activities are offered to all pupils in the residential. The second activity, after evening meals, is house specific, identifying the pupil's individual area of development and tailoring an activity to suit.

Each activity has had extensive planning, highlighting appropriate targets for their social, emotional and development needs. These are then evaluated against their individual Personal Social Profile (PSP) targets and achievements.

Pupils are able to participate in culture evenings, giving them the opportunity to explore other cultures, beliefs and social values.

EXTENDED LEARNING

Strong effective working relationships ensure that education and the staff provide a cohesive curriculum for our pupils.

A bespoke assessment programme evaluates, monitors and evidences development and progress in a wide range of social and emotional skills.

Extended Days pupils will be monitored on three areas of the Personal Social Profile:

- Social Interaction & Emotional Development.
- Activity based Learning & Skills.
- School Interaction & Development.
